E-book

Stay connected
to everyone
and everything.

**UC-One is a collaboration
app that lets you call,
message, and meet with
anyone from any device.**

It includes full HD video, voice,
messaging, desktop sharing and
conferencing in an easy-to-use
cloud application that integrates
with your other cloud business apps.

Decisions, Decisions, Decisions

UC-One is a decision accelerator.

To make decisions quickly and involve the right people, regardless of where they are, employees need **anywhere, any device real-time access** to people and information.

A simple search **finds people quickly** in your contacts and directories.

When you're communicating with colleagues, UC-One finds all the content you have in common, to help you make decisions on time and move work forward.

Because UC-One is in the cloud, everything is accessible in an instant.

Business decisions happen when people are calling, messaging and meeting

Calling

Messaging

Meeting

Calling

If your business relies on **predictable, reliable** telephone calls, **UC-One** is for you.

UC-One provides the highest quality carrier grade calling capabilities to keep your employees connected and productive from any device – laptop, tablet or smartphone.

With UC-One you can:

- » Make and receive your business calls on any device you choose
- » Have your incoming business calls dial a group of team members all at once or in sequence, until someone answers the call
- » Have an auto-attendant route all your business calls
- » Move a call in progress from your laptop to your smartphone and vice versa
- » Access corporate directories so you can easily find company experts

- » HD audio/video
- » WiFi calling
- » One number
- » Transfer, hold, hunt
- » Any device
- » Easy access to directories

Messaging

UC-One is ideal for 1-1 and group chatting, enabling you to have **quick, engaging, and efficient communications** with colleagues.

For cross-company communications, messaging provides a convenient alternative to using email when time-critical decisions need to be made with people outside your company.

- » 1-1 and group chat
- » Persistent chat history
- » Presence status
- » Easy access to emails and files
- » File transfer

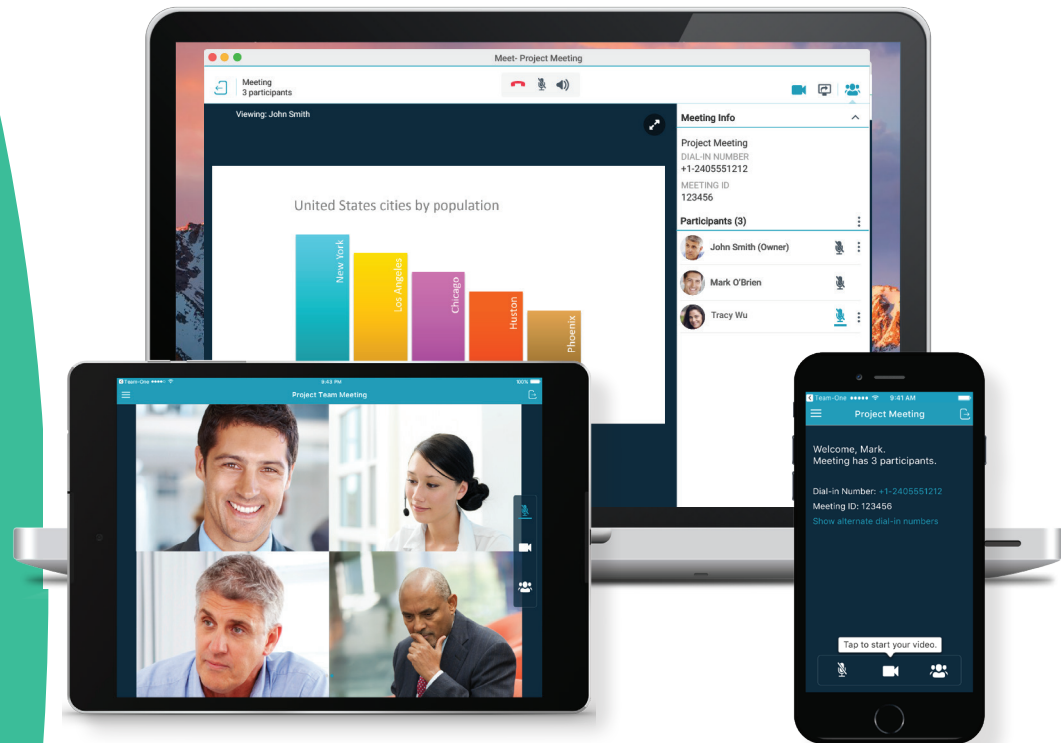

Meeting

UC-One comes with built-in meeting rooms so you can have **productive online team collaboration** with full HD video and voice, group messaging, desktop sharing, moderator controls and easy guest access.

While you're meeting, UC-One gives you visibility and **access to relevant content shared between everyone in the meeting**, such as emails, files, and content from other business applications such as salesforce.com.

Calendar integration automatically displays everyone's availability.

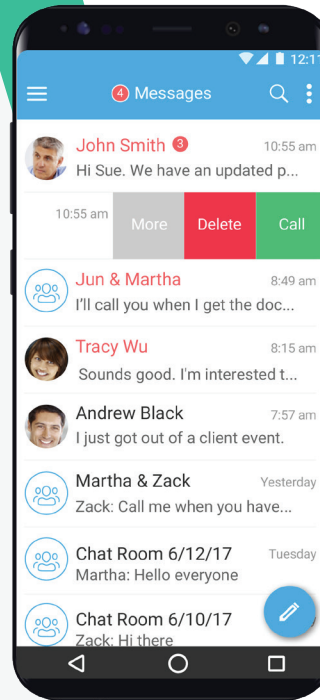

- » Online meeting room
- » HD audio/video
- » Content sharing
- » Messaging
- » Guest access

Mobility

With UC-One your office goes with you, giving you advanced unified communications and collaboration. Plus, one swipe gives you instant access to key documents and information.

- » HD audio/video
- » Messaging
- » Meeting
- » Dual persona calling
- » Move calls between devices
- » Call handover between networks

From your UC-One mobile app, you can:

- » Call (cellular/WiFi), message, and meet
- » Use one phone for business and personal calling
- » Move active calls from one device to another
- » Access your corporate directory, shared documents, and meetings
- » View colleagues' presence availability
- » Call handover between networks while you're talking
- » Enjoy multi-line and 3-way calling

Content in common

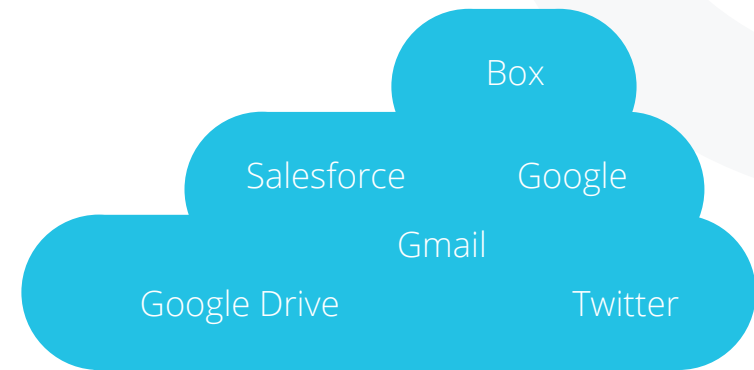

UC-One keeps everything in one place – your files, calls, messages, and colleagues.

We've uniquely pre-integrated UC-One with the most popular business applications used by companies today, giving you instant access to context and important information while you're communicating.

Content you share in common with colleagues or teams, such as emails, documents, calendar meetings, and more, is available at your fingertips, while you're collaborating.

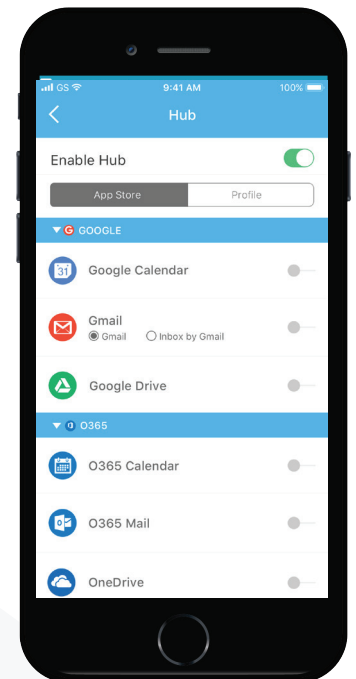

You can also perform quick actions in email, calendar, storage drives, and more from within UC-One. No need to waste time switching apps.

- » Content in common
- » Context
- » Quick actions
- » Calendar scheduling

UC-One integrations:

- » Google G Suite
- » Microsoft Office 365
- » Microsoft Outlook
- » Box
- » Salesforce
- » Twitter
- » Concur
